

## Alaska Flatfish Fishery Enters Assessment for RFM Certification

Alaska's flatfish fishery (Bering Sea/Aleutian Islands and Gulf of Alaska) has entered RFM assessment. The fishery will be assessed against the FAO-Based Responsible Fisheries Management (RFM) Certification Conformance Criteria. If successful, Alaska flatfish products will be eligible to make the RFM Certification claim and carry the RFM ecolabel.

[Click here](#) to access the Site Visit Plan which includes the fisheries subject to assessment (plaice, flounders, soles, etc) and the Assessment Team Members.

Be sure to check for other [Certification](#) information for continuous updates and to monitor the progress of the certification of Alaska's other major commercial fisheries.

As the certification of Alaska flatfish fishery progresses, we will continue to provide updates.
