

May 25, 2017 -- Certification Body, DNV GL, is conducting stakeholder registration for the re-assessment of the Alaska pollock and cod fisheries for the Alaska Responsible Fisheries Management (RFM) Certification Program.

This notice is to advise any parties (individuals or organizations) interested in providing input to the re-assessments to register with DNV GL, providing the following details to Anna Kiseleva at Anna.Kiseleva@dnvgl.com or +47 993 18 529:

1. Name and company, together with contact information;
2. Your association with the fishery;
3. The issues you would like to discuss;
4. Suitable venue and time for a meeting (if you would like to meet with the assessment team)

As a reminder, information is most useful to the assessment team when it is specific and includes constructive suggestions for improving existing situations. Also, supporting documentary evidence for any issues of concern will be greatly appreciated by the assessment team.

For information on DNV GL's assessment team per fishery, click below:

- [Alaska pollock re-assessment team announcement](#)
- [Alaska cod re-assessment team announcement](#)

Upon publication, DNV GL will send registered stakeholders the Draft Assessment Report per fishery requested. The Draft Assessment Reports for each of these fisheries will be open for comment for 30 days prior to moving forward with a Certification decision. For both Alaska pollock and cod, the estimated timing for the publication of the Draft Assessment Reports is December 2017.

Further information on stakeholder involvement can be located at:
